The West Virginia Local Technical Assistance Program is planning a workshop to discuss whether local communities are walkable or not, as well as other related issues. Program leaders hope to discuss problems that area pedestrians are facing and develop an action plan to resolve the issues. The workshop is set to run from 1 to 5 p.m. Wednesday, April 26. The meeting will be held at 400 West Stephen St. in the second floor restaurant area.

Anyone interested in participating may contact Sue Landis with Region 9 Eastern Panhandle Planning and Development. She can be reached at 263-1743.
